

Bloomingtondale Civic Association Historic Preservation Committee

Historic Preservation Workshop

When: Wed., April 13, 2016

Where: St. George's Church
160 U St. NW

Time: 7:00pm until 8:45pm

The Bloomingtondale Civic Association Historic Preservation Committee will present the results of previous public meetings and outreach efforts. The areas that residents had lots of questions and concerns include (1) historic district, (2) permits, and (3) zoning (R-4 that passed July 2015). The questions that residents and businesses previously asked will be discussed. The Office of Planning and Regulatory Affairs have provided responses to your questions. When this segment of the presentation is complete, there will be a breakout session in each area to answer questions that you might have that were not asked before. DC Office of Planning and DCRA officials

will represent the respective areas during the workshop. Please come out and let us hear from you. It's important that you let us know how you feel about a historic district. Is it a designation that you want for your property? You may also contact us @ BCAHistoric@gmail.com with feedback, questions, and suggestions. You may also access our website at Bloomingtondalecivicassociation.org to keep abreast on the progress and the status of the historic district preservation efforts led by the BCA Historic Preservation Committee. Please **donate** (from our website) to help fund this community effort to preserve historical Bloomingtondale.
